

MAXXRAXX

Tow and Carry with MAXXRAXX Measurement Chart

Please note dimensions marked are for the Premier rack; please increase measurements as instructed above for the Discovery and 4x4 MAXXRAXX.

The MAXXRAXX tow and carry measurement chart is meant as a guide only, due to the great range of variables in vehicles, tow bars, trailers and caravans each individual circumstance should be investigated thoroughly by the customer.

To prevent any potential damage to bikes **it is the user's responsibility** to ensure that there is sufficient space for the bikes between vehicle and caravan/trailer with particular regard to the clearance required when driving or reversing on full lock.
